Market Update

Today, the global cryptocurrency market cap stands at \$1.95 trillion, marking a notable 5.25% increase over the last 24 hours. Concurrently, the total trading volume in the crypto market over the same period has surged to \$95 billion, reflecting a substantial 28.56% rise. Within this trading activity, the decentralized finance (DeFi) sector has contributed \$7.19 billion, comprising 7.57% of the total 24-hour volume.

Interestingly, stablecoins have dominated the scene with a volume of \$86.54 billion, representing a significant 91.10% of the total trading volume in the crypto market. Bitcoin continues to hold its dominance, currently standing at 52.63%, showing a modest increase of 0.30% over the day.
